Introduction

Thank you very much for registering at CX Systems Multimedia Gaming & Internet Networks!

As a member you will enjoy the benefits of one of the fastest computers in the country; newest games, multimedia, and research applications that hit the shelves; and currently the fastest internet in Philippine Cybercafé Industry. To make things more exciting, you are automatically entitled for a chance to win on any promos that CX Systems Multimedia Gaming & Internet Networks has to offer!

Because we value the money you use to access our services, your account will be activated and will be protected by your personal username and password. This will ensure that all the money you paid will be used for your own purposes only.

With **CX Systems Prepaid MAX™ Technology**, a pioneering and patented cybercafé management and application launching protocol, you will have an exclusive feel on any terminal you use. This is made possible because all your favorite games and applications will be accessible in a flash and all your personal saved games and documents can be accessed regardless of what computer terminal you want to use. Additionally, you will be able to purchase or access various products and services CX Systems has to offer whether you are in-store, online or mobile.

We definitely value your privacy, flexibility of purchase and ease of use!

This booklet will help you familiarize the use of CX Systems Multimedia computer terminals and other products and services of CX Systems that you can purchase wherever you are by using your mobile phone or the internet.

Please keep this for future reference.

Why Register?

CX Systems Multimedia Networks is the currently the most innovative and advanced cybercafé in the Philippines.

We value the privacy and security of our customers. And with registering on us, your use of our services is username and password protected.

This will insure that all your transactions with us is secured and no other person is able to use your name which will render you to pay the bill of another user.

Each registered user is also given a secured personal data storage. And because you are username and password protected, you are the only person who can access your personal files or game saves at CX.

Being a registered member, you can also benefit from secured over-the-cellphone and over-the-internet purchase of our wide variety of products and services. Upon reading this booklet further, you will learn about such products and services which you can purchase 24/7 without even being personally present inside our establishment.

For parents, having your children register will eventually allow you to control the games or programs you allow them to access. Our cybercafé is currently the only cybercafé that abides by the ratings of Electronic Software Ratings Board (ESRB). By default, your children can only access games and programs suitable with their age range.

We also put up various promos and contests within a year which are dependent upon our customers' registration data.

These are only some of the limitless benefits you can get when you register. CX Systems is continuously innovating to make sure you get the best of today's technology for your computing needs.

Inside our Cybercafé

CX Systems Gaming & Internet Networks is currently the most secure and the most advanced in the Philippine Cybercafé industry. Armed with **CX PrePaid MAX™ Technology**, we make it sure that your experience in using our computer terminals is efficient and productive.

Programs Selection

Programs, Games, and Internet applications selection is categorized accordingly therefore avoiding the clutter of many icons present in other cybercafés.

Secured Personal Data Storage

Every registered user is allocated with a secure personal data storage folder to save your files. This is tied in to your account therefore you can access it on any computer terminal and is protected with your own username and password.

Automated Purchase and Billing

Aside from that, everything is automated. You no longer need to call out the attendant whenever you need to purchase products, extend your time or request for print outs. With just a click of a button, you can order products and services in a flash. Prices are also shown whenever you purchase products. Remaining time and credit balance is also shown for total transparency on billing.

Online SMS Sending

If you have a hard time answering SMS messages through your cellphone while in front of our computers, you can also use our SMS Sending Application to easily reply to SMS messages using the keyboard.

Safe Haven for Youngsters

As part of CX Systems' commitment to social responsibility, waiver and registration is mandatory to minors 17 years old below. This is where parents and guardians can play an active role in their child's activities inside our establishment.

Upon signing of waiver, parents have the ability to choose which games or programs their children can access. By default, CX Systems Cybercafé is compliant with **Electronic Software Rating Board (ESRB)** ratings for programs and games. This automatically disables your child to access games that are not allowed for their age range. To date, CX Systems is the only cybercafé in the country that implements such feature.

Check Out Friends or your Children while they are at CX.

You can check out your friends or children inside our establishment if you have an internet connection at home. This is beneficial if you want to know if you have any friends inside so you can join in. For parents, this is beneficial to know what games or programs your child is currently using and how much time they have left. (See CX GameNet Interact™ for more info.)

Credit and Remote Purchase for Cybercafé Access and Products with PrePaid MAX™

If you choose to get pre-paid in our cybercafé, you have the ability to log-out anytime you want and purchase selected CX Systems products and services at discounted prices. You can continue your time at a later time and your credits and time remaining are saved. (See CX PrePaid MAX™ on page 9 for more info.)

Main Menu

Games & Programs Selection Buttons

These buttons will take you to available games, office, research, multimedia, chat, and internet programs you may need to use.

1

Clicking the GAMES button will show different game genre available.

Click the genre and will show games available for that genre.

Clicking the PROGRAMS button will show 2 categories for available programs.

OFFICE for word processing & multimedia authoring.
EDUTAINMENT for research.

Launching Games or programs

After clicking the desired game or program category, list of applications will show up.

Click on the desired program and press START PROGRAM. Please wait until the program launches completely.

Note: Games, Programs, and Internet applications availability depends on the access rate you have subscribed for the time. See Access Rates on next page.

Access Rates

Games & Programs Selection Menu

CX Systems Multimedia Networks is probably the most flexible cybercafé in the country. We believe that customer satisfaction is achieved if they get what they want whether it is price concern or service concern. With this, CX Systems has provided various Access Rates so you get what you want in a cybercafé.

Access Rates enable you to choose the speed of the internet and the programs and applications you just need for the time.

Regular Access

- Access the internet up to 7x Faster than ordinary connections (384 kbps)
- Office applications such as Word, Excel and Powerpoint.
- Play intense 3D games and Online games that hit the shelves.

Advanced Access

- Access the internet up to 18x Faster than ordinary connections (1.0 Mbps)
- Office applications such as Word, Excel and Powerpoint.
- Play intense 3D games and Online games that hit the shelves.
- Use the latest research applications that are frequently updated and with interactivities and Atlas.
- Downloading is enabled.

Full Access

- Access the internet up to 27x Faster than ordinary connections (1.5 Mbps)
- Office applications such as Word, Excel and Powerpoint.
- Play the latest 3D games and Online games that hit the shelves.
- Use the latest research applications that are frequently updated and with interactivities and Atlas.
- Downloading is enabled.
- Video Conferencing is enabled teamed up with high resolution webcam and high definition audio.
- Multimedia authoring applications are accessible for business use.

For a list of currently available games and ESRB ratings, please visit our website at <http://cybercafe.cxsmmedia.com/thegames.html>.

For a list of currently available research applications and other programs, please visit our website at <http://cybercafe.cxsmmedia.com/apps.html>.

The PrePaid MAX™ Advantage

CX PrePaid MAX™ Usage Guide

CX Systems PrePaid MAX™ is the only cashless way to purchase products and services at CX Systems Networks.

Transactions are Username and Password Protected and you can purchase CX Systems products and services including load using your PrePaid MAX.

You can use your PrePaid MAX in three different venues:

In-Store

While you are logged in using your PrePaid MAX™ inside our cybercafe.

1. Enter the supplied random Username included with your CX Systems PrePaid MAX™ slip when asked at any CX Systems Terminal or CX Systems PrePaid MAX™ Purchase Websites.
2. Select the program/game you want to use or open.
3. When purchasing products, click the "Place Order" button at the lower right side corner of the screen. Select the product you wish to purchase.
4. To know your remaining time and balance, you can view it at the lower right side corner of the screen when you are at the Program Selection Menu.
5. When finished, don't forget to logout to save time. The logout button is near the lower center corner of the Main Program Selection Screen.
6. To re-use your account when your time is consumed, you can reload it by paying your chosen amount minimum of P250.

Online

Wherever you are, whenever there is an internet connection, just go to our website at <http://cybercafe.cxsmmedia.com> and access our automated online purchase services with the PrePaid MAX™ logo.

Use the username and password of your PrePaid MAX when asked.

Note: For **Automated Online Loading Vendor**, go to Page 13
<http://load.cxsmmedia.com>

Note: For **Online order of Photo Prints**, go to Page 17 or visit
<http://www.cxsmmedia.com/photo.html>

Note: For **Online SMS Sender**, go to <http://cybercafe.cxsmmedia.com>
and click **SMS Sender** at left part of the website.

(continued on next page)

Note: P1.00 credit is deducted for every balance inquiry.

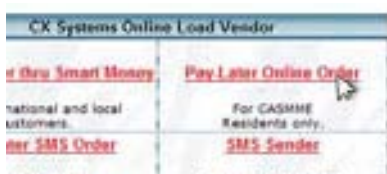

Usage guide for CX Systems Automated Load Vendor

The **CX Systems Automated Loading Vendor** adds the capability for our registered and PrePaid MAX™ customers to load up their cellphones, land line, online games, and many other types of pre-paid loads and PINs locally available. It is the newest and most complete way to load up!

This service runs 24 hours a day and 7 days a week. You can load up, anytime, anywhere you are, **any load** you need with just a text message or through the internet at our website.

Online Loading

Whenever and wherever you have an internet connection, you just need to visit the CX Automated Load Vendor website at <http://load.cxsmedia.com>. and click the **“Pay Later Online Order”**.

Select the Load you need to purchase and the corresponding denomination.

Fill up the needed information completely and accurately.

Note: If your account on CX is **PrePaid MAX™ enabled**, your payment will be automatically billed from your remaining balance. Discount Applies.

Please wait and you will receive the load or PIN you have ordered to the cellphone number you have specified. A CX Systems Representative will collect the payment on your indicated address **between 2-8PM**. If not available during that time, **please pay at 1003 Crimson Road**.

(continued on next page)

SMS Loading

You can also use any cellphone to order pre-paid loads and PINs for you, your friends, or relatives. You simply need to text us up with the following format. Just remember to use your own name and address to process the billing. Just text the following:

Text **LOAD** <space> **PRODUCT** <space> **LOAD AMOUNT**
<space> **CELL NUMBER** <space> **FULL NAME** <space>
COMPLETE ADDRESS and send to:

09195850334 (Smart, Sun subscribers)
09152768016 (Globe, TM subscribers)

Note: For available **PRODUCT** keywords, read below or <http://load.cxsmmedia.com> and click SMS Order.

Please wait and you will receive the load or PIN you have ordered to the cellphone number you have specified. A CX Systems Representative will collect the payment on your indicated address **between 2-8PM**. If not available during that time, **please pay at 1003 Crimson Road**.

Note: This procedure is for **Pay-Later SMS Order only**. If you are on PrePaid MAX™, please go back to **page 12**.

PRODUCT Keywords

Here you will see the list of available load and pre-paid PINs products and their corresponding keywords which you will use when your order them using SMS Transaction.

| e Load | Product | Load Amount |
|---------------------|---------|---|
| Smart/Pwede! e-Load | SMTLoad | AT20, 30, AT40, 50, 60, 100, 115, 200, 300, 500, 1000 |
| Sun XpressLoad | SUNLoad | 20 to 150 |
| Globe Autoload | GLBLoad | 25 to 150 |

Pay-Later SMS Order sample

For example, you would like to purchase Smart E-Load P115 and will be loaded to 0919555532. It will be billed to Juan dela Cruz at address 3050 Vermillion Road, Camella Homes.

LOAD SMTLoad 115 0919555532 Juan dela Cruz 3050 Vermillion Road Camella Homes < send this to 09195850334 or 09152768016

PrePaid MAX™ SMS Order sample

For example, you would like to purchase Globe AutoLoad P150 and will be loaded to 0917555532. It will be billed to PMAX username JuanDC with password 112233.

PMAX GLBLoad 150 <space> **0917555532 JuanDC 112233**
< send this to 09152768016 or 09195850334

(continued on next page)

Automated Load Vendor Policies and Agreements

General Policy

All transactions made will be billed at your registered or indicated address anytime between 2-8PM daily by a CXS Sales Representative. Please have your payment ready or if not available, please pay personally at CX Systems, 1003 Crimson cor Rhodamine Sts., Camella 2, Las Pinas.

If you have not paid within the day, future purchases will be blocked until payment has been made.

Continuous inability to pay will render your cellphone number to be permanently banned to use CX Systems' pay-later scheme for SMS and Online prepaid load or PIN ordering. Although you will still be allowed for PrePaid MAX™ purchase of the said products.

All transactions made through CX Systems SMS Loading Vendor is automated therefore we require that you review your SMS purchase request before sending your text message to CXS. Mistyped cellphone numbers indicated at your orders will still be processed and payment is still required by the person who made the purchase order.

Transaction logs are kept by CX Systems and can be personally requested by the customer for a printing charge of P6.00 per page.

Policy for PrePaid MAX™ Users

If your user account on CX is PrePaid MAX™, your payment will be automatically billed from your remaining balance. Promos and discounts applies.

If you have zero balance or is insufficient for your SMS purchase, General Policy on payment collection applies.

Frequently Asked Questions

Q: What if I will not be able to pay for a couple of days?

A: If you will not be capable of paying for a couple of days, you are suggested to use our **CX PrePaid MAX™** mode of payment. As per our policy on pay-later scheme, "continuous inability to pay will render your account be banned for pay later transactions.

Q: Can I load up cellphones other than my own registered cellphone?

A: Yes you can. Just be sure to use the cellphone number that is register with us or use our online load vendor at <http://load.cxsmedia.com>.

Q: Can I load up my registered cellphone using other cellphones?

A: Yes. We allow this so that in case you have no more load and you can't access our website to order online, you can still load up your cellphone. Please note that you can only load up your own registered cellphone in this scenario.

Q: What if I lost my registered cellphone and I need to change my registered number for the Pay-Later Scheme?

A: You must personally go to our establishment and change your registration while you are logged in to any of our cybercafé terminals. You must inform our attendant that you wish to change your profile before logging in. A fee will be charged to prevent abuse of changing numbers.

For more of these FAQs, go to our website at <http://load.cxsmedia.com> and click 'HELP'.

All you need is to dial up your computer to **4719792**.

You can get a **P100 Flash Connect™** that is good for 20 hours! Or get a **PrePaid MAX™** and connect for P0.30 per minute while being able to use your PMAX load for various CX products and services including pre-paid loads!

CX PrePaid MAX™ is an all-in-one pre-paid card of CX Systems Multimedia where you can use its credits for time purchase, Wi-Fi and Dial-up Internet access at CX Systems Multimedia or other Electronic Loads and pre-paid PINs with discounts.

For **monthly Flash Connect™ Dial Up Internet subscriptions**, billing is every first week of the month.

For more info on CX PrePaid MAX™ and how to use it with Flash Connect, go to page 9 or visit <http://cybercafe.cxsmmedia.com/prepaidmax.html>

For more info on CX Flash Connect™ visit <http://cybercafe.cxsmmedia.com>.

CX Flash Connect™

Most Valued Customer

As a way of thanking our loyal customers, CXS has created the Most Valued Customer of the Month Promo.

Every month, we will be featuring the Most Valued Customer of the Month. This promo exemplifies our customers with the highest usage and purchases of the month and will be awarding them with 1 free hour, full-access PrePaid MAX™ Load and an accumulation of additional free 30 minutes for every consecutive monthly winner!

Aside from this, one of the grandest promos of CX Systems Networks is the Most Valued Customer of the Year Award.

It is where we exemplify Top 5 customers of CX Systems Networks that have the highest usage and purchase all throughout the year.

This promo has already been a tradition at CX Systems Networks since 2004. Deserving winners get large free PrePaid MAX™ Loads.

For more info on on-going promos at CX Systems Networks, visit our site at <http://cybercafe.cxsmedia.com/promo.html>

CX Systems Computers

Years of experience and extensive research on the latest trends and gadgets used in today's computer technology; CX Systems chooses only the best computer hardware that mixes well to provide a fast, reliable and compatible computer.

CX Systems has already pre-defined computer configurations depending on your budget, and the primary use of your computers. Performance and reliability are guaranteed as it is proven by the computers CX Systems Multimedia use for its Multimedia Authoring and Gaming Networks. Unlike other computer bundles that consists of cheap parts, CX Systems chose the best for its price level. Less on downtime, high on performance!

To prevent customer's burden in choosing computer parts, CX Systems has provided four (4) powerful pre-defined computer configurations. They are the Unprimitiva, Prima, Ultima and CXS2 Series.

Unprimitiva Series

The most affordable computer setup, yet powerful. It is the basic multimedia system for power, speed, reliability and flexibility. Superb use for word processing, database applications, web browsing,

Video CD playing, and many more. It is also good for 2D or Basic 3D gaming.

Prima Series

Primal multimedia system for power, reliability, and flexibility. A powerful combination of computer hardware and accessories that is built for your need of a home music system, video CD

and DVD playing, sufficient for 2D or 3D gaming, web-browsing power.

Ultima Series

Ultimate multimedia system for power, speed, reliability, and flexibility. A very powerful multimedia system. It has the exceptional power for 2D and 3D & 3D accelerated games. It is also a basic

Home Movie System sporting DVD Playback and 2.1 Surround.

CXS2 Series

All-in-one multimedia system. The most powerful multimedia setup CX Systems offers. It can also be used as a home theater system. This computer system is ideal for video or sound editing so as 3D

gaming experience, and very powerful for web browsing. And most of all, it is equipped with one of the fastest processor of today's PC which is compatible with today's 32-bit computing technology as well as the upcoming 64-bit computing technology!
